

PHOTO CALLER

Captures your face perfectly

DUOX
SMART SYSTEM

New function for VEO and VEO-XS DUOX video door entry systems.
It captures up to 150 images of visitors, indicating the date and time.

More security and comfort, at the same price!

FERMAX

VEO

Simple and functional. Comfortable and natural.

The new Fermax monitor stands out due to its design and simple usability. VEO is a simple and functional monitor designed for those who are mindful of every last detail in their home.

A synthesis that brings design and performance to its most essential expressions, in a monitor specially conceived for those who want to take the leap into video.

This device from FERMAX includes a full-colour 4.3" TFT screen, with a magnet in the handset that makes hanging up the telephone easier. Additionally, it is made from high-resistance ABS plastic with protection from ultraviolet rays, to achieve a higher resistance to the light.

VEO XS

VEO-XS is the 'extra-small' version of VEO. Small and thin, it is aesthetically impeccable and finished perfectly, so it can be placed anywhere in a home or office.

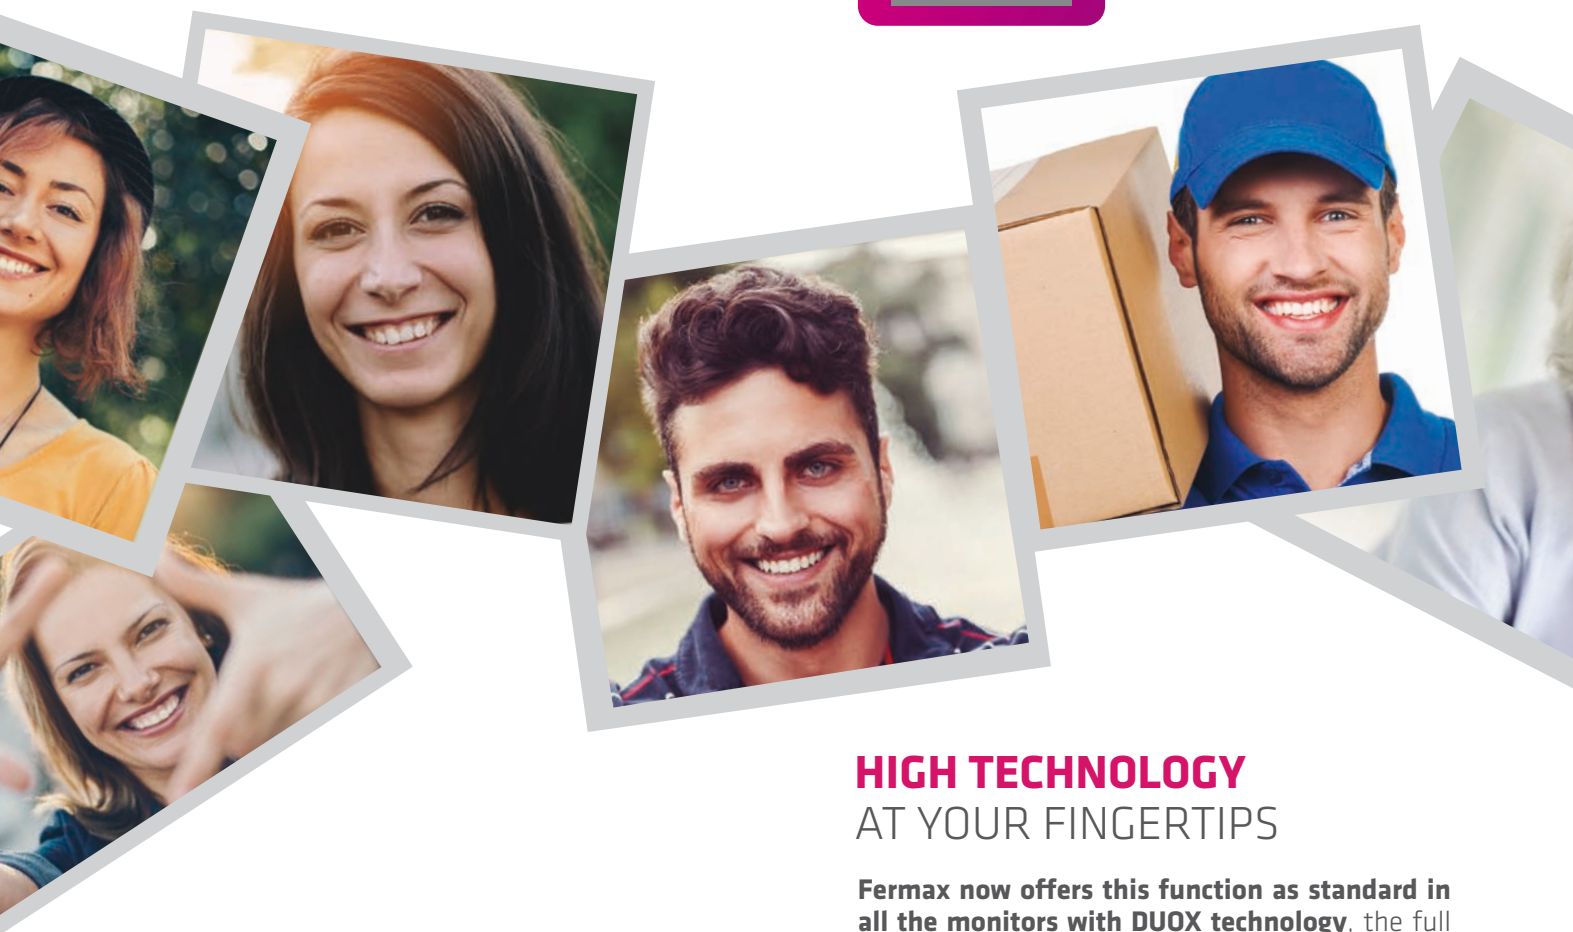

It works in hands-free mode, so it can be controlled with just one finger. VEO-XS offers all the benefits that are required in a modern video door entry system. Everything can be managed through its mechanical buttons and a simple OSD menu.

With the blue button you can open the door and with the other buttons begin a conversation, turn on the camera, activate additional functions or adjust the settings.

And there is still one more detail: it contains a wheel for regulating volume, located on the side of the product.

NOW EQUIPPED WITH **PHOTOCALLER**

YOU WILL WANT IT IN YOUR HOME

Why do the neighbourhood kids always call when it is time for a nap? Did the deliveryman arrive at 12, when nobody was home? Did your sister-in-law turn up without warning and ring insistently?

Now you can know exactly what has happened at the door to your home, thanks to Photocaller from Fermax. You will be able to see photos of your visitors, as many times as you like... or delete them immediately!

HIGH TECHNOLOGY AT YOUR FINGERTIPS

Fermax now offers this function as standard in all the monitors with DUOX technology, the full digital system from FERMAX in 2 non-polarised wires. As such we provide you with more security and convenience at the same price!

- Completely digital
- 4.3" panoramic colour screen
- OSD screen menu
- 5 melodies
- Additional functions

Photocaller function: stores up to 150 images, indicating the date and time when they were taken. When the maximum level has been reached, it will automatically delete the first photo in order to take a new one.

It always indicates on the screen if there are unseen photos, or if the date/time is not configured.

AS EASY AS THIS:

1.

Access the main Menu.

2.

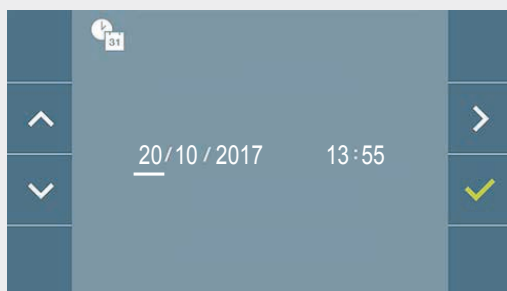

Choose the photo that you want to see
with <>

3.

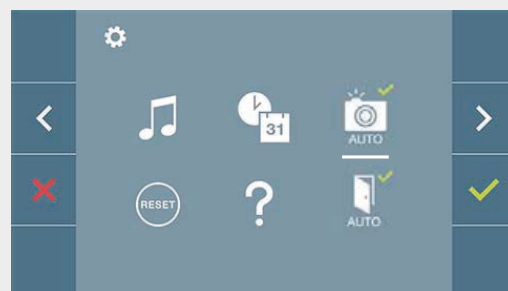

Delete the images that you don't want
with 

4.

Remember that the date and time
need to be updated.

5.

You can deactivate the photocaller
function .

NEW **PHOTOCALLER** FUNCTION

The new **PHOTOCALLER** function from **FERMAX** takes an automatic snapshot of anyone who rings your doorbell, allowing you to store up to 150 images with the date and time when they were taken, so that you can feel relaxed whether you are at home or not.

PEACE OF MIND

Have peace of mind when you are not at home knowing that this new function lets you know who has visited your home, even when you are away.

Have peace of mind because due to its innovative DUOX technology, you get to choose which terminal suits your home. With Duox every resident in an apartment block does not need to have the same terminal as their neighbour.

Have peace of mind because of its precision, allowing you to store up to 150 visitor images with date and time details.

Have peace of mind because of the saving it offers, achieving high-end functionality without affecting the cost of your terminal.

Have peace of mind because the advanced storage functionality of the DUOX Photocaller means that you can record and retrieve visitor images whenever you want to.
