2. ACTIVATION/DEACTIVATION OF VIDEO CAPTURE

The monitor can take an automatic picture within 5 seconds of receiving a call from an outdoor panel. According to the European Union legislation about data protection ((EU) 2016/679), the capture of images may be restricted. This feature is deactivated by default in all monitors, although can be activated at your own responsibility. Furthermore, the legislation may force to place a sign next to door stations, indicating that monitors can capture images. You can download it at <https://www.fermax.com/intl/en/corporate/utilities.html>.

With select the icon and confirm with .

Press to activate/deactivate the function.
